I have 400,000 constituents, but reply in person whenever I'm able. Part of what has made being an elected official for 17 years a 7 day a week job for me.

I'm not passing the buck, and I know it's hard to believe (aka incredible), but the County only has access to one justice system when we book the person.

That system does NOT include country of origin or citizenship. The Feds have that info and have access to our system, but not vice versa.

Good night...M

I do think that is something we can all find in common, whether it is a federal, state or local agency, each is way, way too busy trying to deflect and point the finger elsewhere. That is just sad. Wouldn't you agree? I am sure you have an auto reply message waiting for this as well. Again, the state of our county makes me very sad.

However, after two months and 141 pages of input, it was unanimously conveyed to our Board — and personally very frustrating for me to learn —that there was no way for us to confirm if a person in our custody is documented or not.

I would like to know who I can count on in public office as this issue moves forward? It's not going away, nor are the voters, who are frankly sick & tired of the counties lack of action on this important issue. I believe that deserves more than an auto reply. Thank you for your time.

As my County Supervisor, I am asking you to please listen, represent & CHANGE current county policy regarding cooperation w/ICE & other law enforcement agencies, where it involves serious & violent criminals. Please don't let Bambi Larson's horrific murder be yet another example of Santa Clara County's lack of common sense & inability to do the right thing. The law needs to change when we are more concerned about protecting the rights of convicted, serious & violent criminals over the rights of law abiding residents.
